

Foodservice Business Report .com Georgia

Since 2006, the Foodservice Business Report has been supplying high quality leads that our subscribers convert into new and profitable business. Here is the first page of the February 2018 Foodservice Business Report. **The March Report itself consists of 18 pages and 44 Leads.** It also contains information on recent closings and new projects that are on the way.

The FBR is Designed for Salespeople AND Sales Managers. The Report is published in both Pdf and MS Excel formats. You can sort and assign leads from the MS Excel Spreadsheet. The MS Spreadsheet is up-loadable to most CRM's. You can copy and paste leads from the Pdf version into the body of email messages and send to individual leads to individual salespeople.

The FBR covers the WHOLE State, Not just ITP/OTP Atlanta.

We have Google Map Links of the leads that we provide. Now you can plan sales calls and **SAVE GAS!!!**

The FBR Reports ONLY New Restaurants and Other Foodservice Operations. We **DO NOT** Report on Retail and other Non-Foodservice Businesses. (Like Salons, Clothing Shops, etc.)

The FBR is Designed for Multiple Marketing Uses: You can create labels from the spreadsheet for Direct Mail Campaigns. The spreadsheet can also upload email information to Email Marketing Services like MailChimp (FREE!) and Constant Contact.

The "Other News" Section is on the PDF version only and covers:

- Projects that are on the Horizon and don't have addresses or haven't started construction.
- Projects from past reports that are moving slow or fall out of sight and are now showing renewed progress.
- Business closings.
- New information that can affect the way that you sell to the industry (ex. Changes in laws and regulations).
- Mixed Use Developments and their progress.

Subscribers claim that our Report puts Extra Money in their pockets by saving them Gas, Wear & Tear on their Cars, and Time...

The Foodservice Business Report is MORE than JUST a Leads List!

Subscription Cost: \$59 per Month
